Deciding on 32-bit or 64-bit before a MedImage MedTech32 installation

Are there two C:\Program Files... folders?

64-bit PC

32-bit PC

No

Does the file C:\Program Files\Embarcadero\Interbase\bin\ibclient64.dll exist? *

Yes

32-bit Interbase
Use: 32-bit MedImage & ODBC Driver

Yes

No

64-bit Interbase
Use: 64-bit MedImage & ODBC Driver

32-bit Interbase
Use: 32-bit MedImage & ODBC Driver
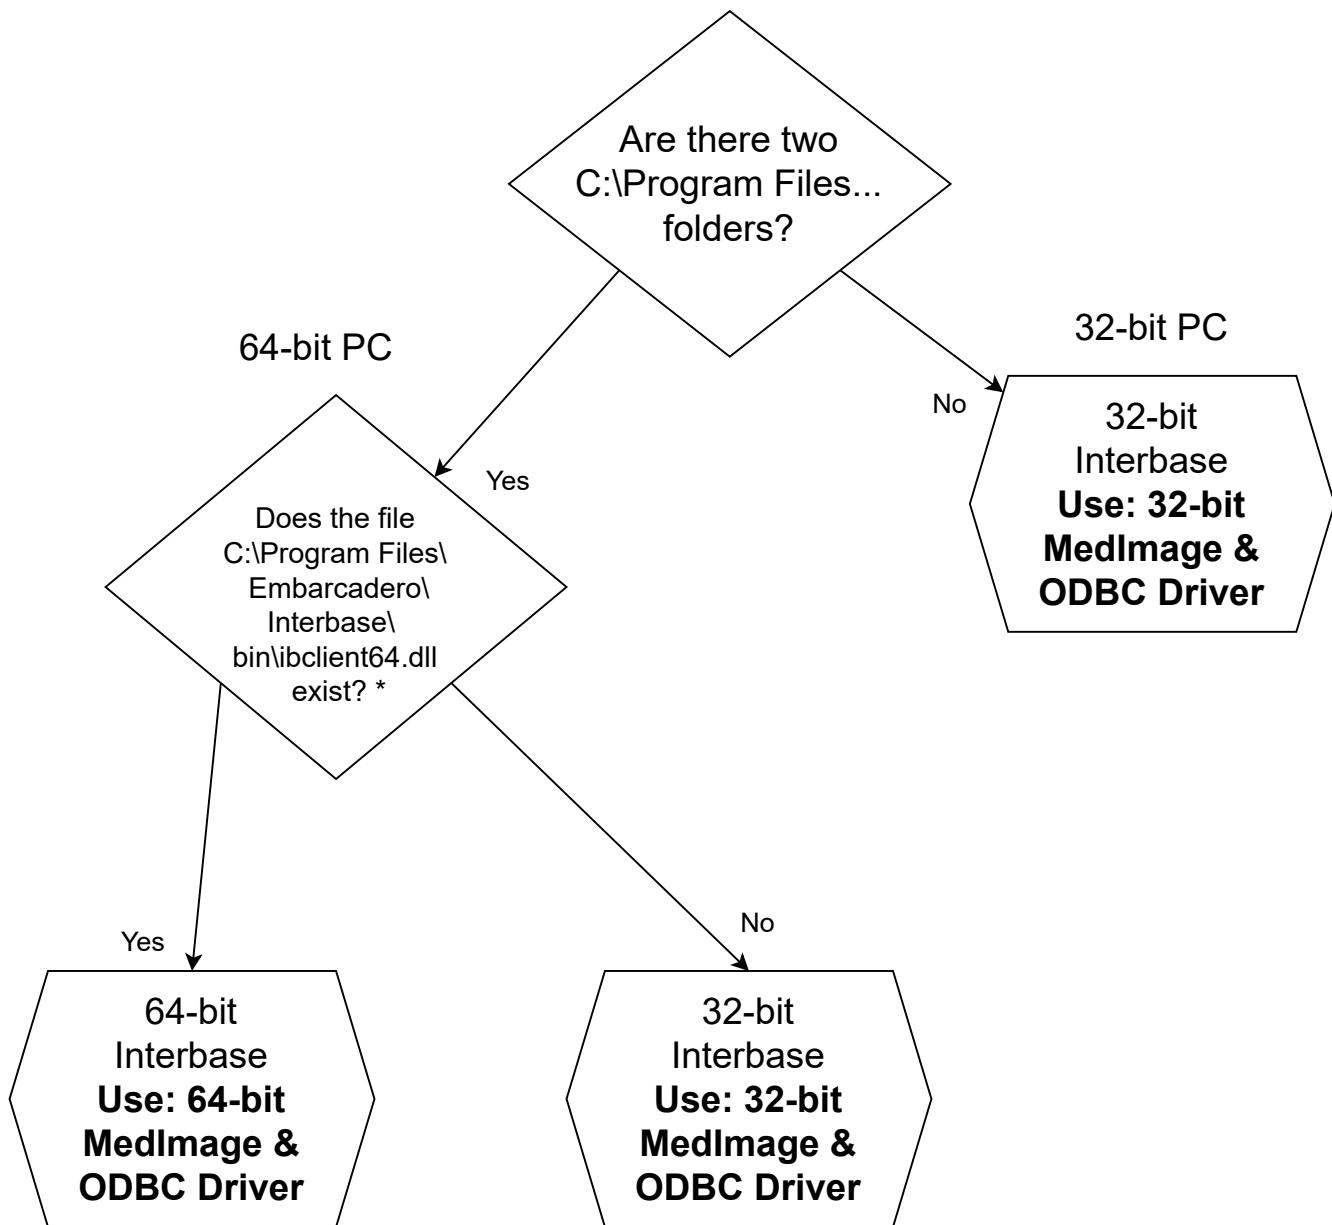

* **Note:** It is also worth confirming that the Interbase database server is 32-bit or 64-bit with [this guide](). The process name in the Task Manager should include the word '**ibserver**' or 'interbase'. It may mention the word 'Embarcadero' (the name of it's developers' company).
